#### Section Crew See Foreman Killed.

In full view of the men he was in charge of, John McCarthy, a section foreman was struck by fast Louisville & Nashville freight No. 42 at Escondida, about four miles south of here about 11:20 o'clock Tuesday morning and as a result of his injuries he died a few minutes later without regaining

consciousness. McCarthy, who was aged about thirty-eight years, had been in the employ of the railroad company for several years. Tuesday morning he was engaged with his crew of workmen at Escondida repairing the trackat that point. He was seated on the track and it is supposed fell asleep. The members of the crew thinking he would get out of the way of the fast approaching train, did not realize this until the train was upon him. The other men stepped aside when the pilot of the engine struck McCarthy, hurling him a distance of fifteen feet to the other side of the track.

The heavy train, which was going at a rapid rate of speed down a steep grade was brought to a stop a short distance from the scene and the unfortunate man was picked up and put ahoard. He was still breathing when put on the train but died before reaching Paris.

The remains of the dead man were taken to the undertaking establishment of Geo. W. Davis to await the Coroner's inquest and where they were

prepared for burial. Both legs were broken between the knee and the ankle and the bone of the right leg was portruding through the flesh. His left thigh was also fractured and the left arm broken between the elbow and wrist. Just above the right temple the scalp was cut. He was bruised about the head and body and the face was badly abraded.

In the clothing of the dead man was found fifty-three dollars and fifty cents, a number of keys and a gold watch. The crystal of the timepiece was broken and the watch stopped at 11:20 which denoted the exact time the unfortunate man was struck by

McCarthy was a brother of Engineer J. J. McCarthy, of the L. & N. and boarded with his sister, Mrs. Frank Lenox, at the corner of Thirteenth and High streets where the body was taken after being prepared for burial. Besides the sieter and brother residing in this city, McCarthy is survived by another sister, Mrs Ed Haynes, of Covington, and three brothers, Fred, of Poindexter, Charles, of Richmond,

and Michael McCarthy, of Cincinnati. The remains were taken to Cynthiana yesterday on the early morning train, and the funeral was held at the St. Edward Catholic church, the Rev. Father George A. Bealer, officiating The burial took place at St. Edward's cemetery.

#### Seeking New Road.

CORNE WATSON BAIRD.

There promises to be a lively compe-tition between Winchester and Mt. Sterling for the proposed extension which the Louisville & Nashville company is said to contemplate building from Paris to reach the extensive coal fields of Eastern Kentucky. Two lines have been surveyed, one taking up the original route of the Kentucky Midland, running through Little Rock and North Middletown, this county, into the mountains, first taping the Chesapeake & Ohio at or near Mt. Sterling. The citizens of that city are putting forth every endeavor to secure this line. The other line runs from Paris through to the Clark county line, thence through Winchester to Indian Fields, and on into the mountains to Irvine, connecting there with the Louisville & Atlantic road, which is now a part of the Louisville & Nashville system. The Winchester Commercial Club has taken the matter up and has gone to work in a vigorous manner to induce the railroad people to adopt the Winchester survey. Report has it that both lines will be built. KNOW

#### LIQUID CURES ECZEMA WHERE SALVE FAILS

In regard to skin diseases medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT. A Wintergreen, Thymol, and other ingredients as combined in the D. D. D. Prescription, penetrates to the disease germs and destroys it, then soothes and heals the skin as nothing else has ever done.

A 25-cent trial bottle will start the cure, and give you instant relief.

#### James Making a Winning Fight.

All doubt of Democratic success can be dispelled by reading the newspaper reports of Ollie James' triumphant journey through the State. Wherever he has gone immense crowds have greeted him, and the enthusiasm is greater than has been aroused in years in any political campaign. This is not entirely due to Mr. James' magnetic personality, although he is popular with all classes. It is 'caused by the desire of the Democrats to show by their presence that they are going to send to the United States Senate a man who will vote exactly opposite to Senator Bradley. They recognize that one vote in the Senate may mean the control of that body, so closely are the parties divided. It was not necessary for Democratic speakers to raise National issues in this fight. The voters themselves are asking questions about the tariff and the trusts and they have made this great issue a feature of the campaign. All the efforts of Judge O'Rear to confine this contest to State matters have only convinced them that have a parlor stove as artistic the Republican party wants to change as it is serviceable. Nineteen hold-over Senators, just one-half of that body are Democrats. They will be presided over by Edward J. McDermott, clean, capable and trust-worthy. They can put into practical laws the reforms promised by the platform. They are not only under pledge to their 'party but the people will hold them to strict account. Give them a Governor of their own political faith, and discord will vanish and the needs of the State will be supplied. Judge O'Rear in the executive office, with a Democratic Legislature would be as helpless as a child.

#### Jim Garnett's Popularity.

Hon. James Garnett, Democratic nominee for Attorney General, is not only one of the ablest lawyers in Kentucky, but his popularity is co-extensive with his acquaintance. It is conceded that he will get more Republican votes in the Eleventh District and the Southwestern States sought cations from the Secretary of War to than any man on the ticket. #### Heavy Increase in Coal Output

There was a notable activity in Kentucky's coal mining in 1910 according to figures just made public by E. W. Parker, of the United States Geological Survey.

The total production of the State was 14,623,319 short tons: valued at \$14,405,887, as against 10,697,917, in 1909, a gain of 3,925,935 short tons, or 36.7 per cent in quantity, and of \$4,325,970, or 42.92 per cent, in value. The stoppage of work in the coal

mines affected by the general strike of 1910 was of material benefit to the operators and miners in Kentucky, particularly in the Western field. During the six months of idleness in the other States the shipments over the Louisville and Nashville Railroad from ley Warner. the Western Kentucky coal field increased nearly 70 per cent over the corresponding period in 1909.

Notwithstanding the extraordinary demand upon the Kentucky mines, the labor supply was entirely adequate, as many of the miners who were thrown out of work by the strike in Illinois employment in Kentucky and in other States not affected by the strike order. ## Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in con-densed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves-in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM---it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

#### STAMPS WORTH A MILLION

Largest Collection Ever on Display to Be Seen at the Chicago Art Institute of Chicago.

Chicago.-A million dollars worth of rare postage stamps were placed on exhibition at the Art institute the other day, the collection being the largest ever shown in the world. The exhibit is a feature of the meeting of the American Philatelic society and the exhibitors include millionaires, governors, senators and a number of boys.

Chicago's exhibit is not international, but the collection is more valuable than the one displayed at the last international exhibit at Birmingham, England. The doors of the Art institute were opened to the public following the reception to the guests in Fullerton hall.

"I am sure the world has never Loth, director of the exhibit. #### MATRIMONIAL.

-Mr. B. M. Osborne, of Scott county, and Miss Lucille Stone, of Georgetown, eloped to this city Tuesday evening and were quietly married at the residence of the officiating minister, Elder Carey E. Morgan, on

Twelfth street, about eight o'clock. Parental objections on the part of the folks of the young lady principal to the wedding prompted the elopement. They arrived in Paris shortly after supper in an automobile, and securing a marriage license from County Clerk Paton they went at once to the residence of Elder Morgan, where the ceremony was performed.

The bride is a handsome and attractive young woman of the brunette type and the daughter of Mr. and Mrs. Benj. S. Stone, the former a member of the City Council of Georgetown, prominent in politics and business man. The groom is a young farmer and a son of Mr. and Mrs. John Osborne. He is well connected and a member of one of Scott county's most wealthy families.

Immediately after the ceremony the couple left in an automobile for Lexington from which point they took a train Wednesday morning for an extended trip in the South.

Inn Names In Germany. Germany probably holds the record for out of the way signs and fantastic inn names. The most absurd results are usually obtained by the name of some animal with a more or less unsuitable object. The Comfortable Chicken and the Cold Frog, both of them in Berlin, are certainly left in the shade by the Angry Ant (Ort, in Westphalia) and the Stiff Dog (Berlin). The Lame Louse is an inn in a suburb of Berlin, and not far from it is the Thirsty Pelican. The Dirty Parlor, the Bloody Bones, the Musical Cats, the Fourhundredweight Man, and the Boxers' Den are all in Berlin or the neighborhood, and the Old Straw Bag in Leipzig. The Open Banghole is in Stadtohen, in the Palatinate, and the Shoulder Blade in Jerichow. The Last Tear is a landlord's notion for the name of his inp, situated near a graveyard, visited by returning mourners, and is of frequent occurrence through out the fatherland.

A Strange Colony.

The Colonia Cosme, on the Paraguay above Asuncion, is one of the most curious in the world. The members of the colony make or grow everything they want and import nothing. The workmen have seven hours' work a day and earn, not money, but time. Their wages are hours and half hours. These they sometimes save up till they have a week in hand and then go off on an excursion. If a man wants a chair or table he pays for it in hours of work, which are deducted from the balance to his credit. Three men went off up the river in a canoe for a three weeks' holiday. They sold their canoe at Asuncion for a pound and came home overland in ten days, lodged in the best houses in the villages on the way and yet had some money in hand at the end.-London Spectator.

Dogs In Ecclesiastical Decorations. The stained glass representation of the "Peddler and His Dog" was removed from Lambeth church a quarter of a century ago owing to the alleged incongruity of introducing the figure of a dog in a church window. Quite recently Chancellor Prescott of Carlisle refused a faculty for a stained glass window in a Westmorland church because the design included a dog, and perhaps the only existing examples of dogs used for ecclesiastical decorations are to be found in Lord Brownlow's private chapel at Ashbridge. In this church one stained glass window depicts Tobias and Sara in bed and a dog sleeping on the quilt, while in another window Job is shown being mocked by three men, one of whom is holding a dog by a chain.-Westminster Gazette.

The Giant's Staircase.

One of the most widely known geological curiosities in the vicinity of Cork is a series of knobs or knots projecting from the face of a cliff. There are sixteen of these huge projections all together, all regularly set in the face of the cliff, one above the other, forming a series of such uniformity as to give it the general appearance of a stairway. Since time out of memory this queer ascent and its projecting "steps" have been known as the Giant's Staircase.

How He Won.

A rich old man was asked how he made his money. "Simplest thing in the world," he said. "I always did the reverse of what everybody else was doing. If everybody bought, I soldprices were high. If everybody sold, I bought-prices were low."

#### WHAT CURES ECZEMA?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of itand although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because-We know that it gives instant relief to that torturing itch. Because-D. D. D. starts the cure at the foundation of the trouble. Because-It cleanses, soothes and

heals the skin. Because—It enables Nature to repair the ravages of the disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema cure.

#### To Fight High Cost of Living.

Members of the farmers' union in Bath county are taking steps to establish a co-operative store and a bank to be capitalized at \$35,000. The farmers are enraged at the high cost of living and intend to buy their staples in large quantities to bring down the ordinary purchase prices. If the movement succeeds, it is intimated that promoters will advocate establishment of the plan in all of the . Southern States where the union is strong.

### Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

## Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women.

Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

About fifteen of the best cows and heifers were bought by Franklin county farmers, Edwin Dryden securing several.

#### WASH THAT ITCH AWAY

It is said that there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure?

But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child.

If you have not already tried it, get at least a 25-cent bottle today. We assure you of instant relief.

#### A Singular Dress Parade

A Story of the Future By SADIE OLCOTT

Copyright by American Press Association, 1911.

It was in the year 1920 that the matter of woman's suffrage came to a head, woman agreeing to accept all du-

ties of citizenship the same as men. A battalion of volunteer infantry was organized by the government as an experiment, under command of a major. Trouble began as soon as the matter of uniform came up for consideration. The brunettes strove for a deep red with black facings, while the blonds favored either pale blue or pink. The matter was voted upon, and, the brunettes being in the majority, the red won. A pattern for the suit was adopted, the trousers being very full and reaching only to the knee. Since the first decade of the century, when women began to wear hats of different shapes, independence in this matter had been continually growing. It was therefore found impossible to agree upon a uniform hat. and each woman was permitted to wear any shaped head covering she pleased.

The members of the regiment were ordered to rendezvous in camp. The quartermaster, a man who had been charged with the work of establishing the camp, provided only such equipment as he had been used to providing for men. During the morning of the date of assembly the women soldiers came flocking in, the quartermaster receiving them and instructing them in the uses of the equipment. What was his consternation to see vans, wagens, carts, without limit drive up loaded with trunks, valises and other articles of baggage. The hat boxes alone, most of them prodigious, occupied more space than the belongings of a regiment of men.

He telegraphed at once for 500 hospital tents, which gave each woman one for her baggage. Fortunately the tents arrived while the weather was yet fine, and no damage was done by exposure. A dress parade was ordered for 5 o'clock in the afternoon, and peoness of the crop occaisoned by the long | ple flocked in from city and country to see this popular military ceremony. When the call sounded and the line was formed it was plain that much must be done for uniformity. Here and there a blond had disregarded orders and had her uniform made of pink or blue. Some who were what is commonly called spindle shanked had their trousers made to reach the foot. But the greatest irregularity was in hats with enormous crowns, hats with ers plucked from every bird from the ernment inspector from Washington slightest attack of kidney trouble. cast his eyes along the line his brow darkened. But he had orders from the inspector general not to be too rigid with the battalion, which from the nature of the case needed a great

> deal of latitude. The troops having been brought to an open order and a parade rest, he walked down the front of the line. At the first glaring breach of uniformity he reached he made a few remarks. He did not repeat them. The soldiers whose apparel he had found fault with began a defense, which lasted fifteen minutes and was not even dis- Oberdorfor's. continued when the inspector moved

As he passed along at the rear his position might be noted by the woman he was behind putting her hand to her back hair.

Having gone through the inspection perfunctorily he assumed his original position, and the major commanding was directed to put the battalion through the manual of arms. Her first order was "Attention," the second "Shoulder arms!" At the latter order every musket went up and every hat The big sale of registered Jerseys of extra size was knocked off and rollheld by Thos. E. Kenney in Franklin ed on the ground. A brisk breeze blowing at the time carried many of them away, rolling them over the parade ground.

The situation was very embarrassing to the commander. How to get the volved a puzzle. To break ranks during a dress parade would be unmili tary, yet the hats could not be permitted to remain the sport of the wind. There were boys looking on who might be hired to chase them and pick them up, but only the women knew their own hats. The crowd looked expectant. There were some jeers. The inspector stood in a soldierly attitude, with arms folded. Decisions among soldiers cannot be long delayed, and the major was forced to act.

"Stack arms!" "Break ranks and chase hats!"

There was a scurrying over the field by women who were fat and women who were lean, tall women, short women-indeed, all shapes. The fat ones fell on their hats and crushed them; the tall ones on stooping to pick up their property were knocked over by the short ones. Finally the hats were recovered, the

women "fell in" and the ceremony proreeded. When the band paraded the drum major, who had been selected. of course, for her height, produced a very marked impression on the spectators. Her headpiece, the size and shape of a flour barrel, was surmounted by a plume resembling a column of smoke. Indeed, those who gazed upon t were obliged to look at the sky as

From the fresco paintings of women in Cretan palaces of the period about 2000 B. #### Snail Millions of Years Old.

A petrified prehistoric snall embedded in the heart of a large piece of blue lias stone, was discovered a few days ago by quarrymen working at Cheddar Cliffs, Wales, upon some large boulders of stone which were displaced in the landslide which occurred some years ago. The discovery is distinctly interesting to the geologists on account of the great age of the find, as, situated upon a very low strata, it must be millions of years since the snail lived.

#### Remains of Old-Time Fortress.

Archaeological researches made at a spot some 20 miles from Kars, Russia, have brought to -nt a completely intact stone fortress of prehistoric date.
